RE: ASBESTOS INSPECTION

Dear Sir,

Further to your request, we have visually inspected the above named property with the view of assessing the existence of any asbestos, or asbestos related products.

In particular we have checked for linoleum tiles, backing to electrical distribution boards, loose insulation or asbestos sheeting such as eaves linings or wall / ceiling linings.

In no case did we find evidence of any of the materials mentioned above.

Hopefully the above meets with your approval. Should you require any additional information, please do not hesitate to contact the undersigned.

Yours faithfully

Franco Visintin
